

SilkRoad Onboarding: I-9 & E-Verify

Deliver a comprehensive & compliant new hire experience

Achieve day one readiness & compliance

Ensure new hires complete their required forms and tasks prior to day one and drive compliance within the organization through automation. Comply with the U.S. Department of Homeland Security requirements for remote onboarding with a verifiable audit trail.

Advantages

- I-9 & E-Verify Integration with the U.S. Department of Homeland Security
- Multiple e-signature methods, including keyboard sign and cursor sign
- Ability to assign and restrict access to Section 2 of the I-9 to external authorized parties with an email address for remote verification

Re-verification

Automated (form I-9, Section 3) events when employee work authorization expires

Compliance

Adherence to SOC2 compliance, GDPR and other industry privacy regulations

Visibility

Real-time dashboards provide organizational compliance status
